Bay Area Multifamily Capital Advance Program

How it Works

The Bay Area Multifamily Capital Advance Program (BAMCAP) provides loan capital at 0% interest to your lender of choice, which means you only pay interest on the loan capital supplied by the lender. For example, if the lender approves their portion of the energy efficiency loan at 7% interest rate, BAMCAP provides half of the capital at 0%, the combined interest rate on the loan would be 3.5%. The program's share of the financing is limited to no more than 50% of the cost of the approved scope of work minus any program incentives. In addition, the share of the financing is up to \$5,000 per unit or \$500,000 per project, whichever is less.

How to Get Started

1. Develop an energy upgrade scope through the Bay Area Multifamily Building Enhancements or PG&E Multifamily Upgrade Program.
2. Find a Lender that will issue you a loan and participate in the BAMCAP program. The existing Participating Lenders are listed below.
3. The Lender completes the paperwork with BAMCAP and issues your loan.
4. You make monthly loan repayments to the Lender while enjoying below market interest rates.

Eligibility

The owner of any multifamily building consisting of five (5) or more attached units located in the nine county Bay Area (Alameda, Contra Costa, Marin, Napa, San Francisco, San Mateo, Santa Clara, Solano, Sonoma) are eligible to participate in BAMCAP. To access financing, buildings are required to receive a program-approved analysis of their building systems. This analysis can be conducted through the program's customized project consultation.
